

Let's Cheer Up! Relay Talk

みんなにエール！リレートーク

■How are you doing these days?

I avoid being in a crowd. I originally don't like waiting and I don't visit popular places such as ramen shops famous for long queues, so I'd say it's not a "new lifestyle" for me...

One big happy change is, I can enjoy many books again! Yokohama City public libraries have been closed for some months, but they have gradually started re-opening. I feel relaxed when I absorb in reading!

How about you?

■Is there anything you are worried about?

It seems that school summer holidays will be only two weeks. It's too short! I'm wondering how we can take a good rest this summer. Also, I think it's hard to run away from stress when things remain unclear.

■Could you recommend some websites, videos, TV programs, etc., that you enjoy at home?

First off, I recommend comedy shows (お笑い) definitely^^

As I miss Shimura Ken san, I enjoy the Drifters shows again. My child love Yoshimoto Shin-kigeki so much. It's interesting that just laughing out loud cheers me up and gives me fresh strength...!

I love to travel and often wonder where the next destination is.

My favorite travel website is <https://4travel.jp/>. When I travel, I search for hot spots and good restaurants. The members are so helpful,

and I can always find useful information even on a small town!

■Could you send a message to international students?

It's been a difficult time for everyone, but I hope each of us can find something encouraging. Books cheer me up. I have my own bookshelf on the website <https://booklog.jp/>. I register books that I read and I want to read (1,461 books now). My favorite author is Miyamoto Teru. He's been my soul author since I was in my 20s. I like Ibuki Yuki and Onodera Fuminori too. I enjoy their books in recent years.

Who will be our next runner...?!

If you would like to send some message here, please write to isc2020.talk@ATgmail.com. ('AT → @)

Thanks and stay safe!
